

## Navori to offer live content

Lausanne, Switzerland - Navori SA, a leader in digital signage software applications announced today that it will offer live, 5-day weather forecast modules for 80,000 cities worldwide. These Flash modules can be easily imported into the Navori Tycoon digital signage software and the content will be continuously updated each time it is displayed on screen.

Initially, Navori SA plans to offer 2 layouts and 2 colour schemes but this may be expanded later based on customer feedback.

Cost for this new service will be \$ 9.95 USD per month/per screen.
