

NAVORI PLAYER

Take your Screen-Based Communications to the Next Level with Navori

NAVORI
International SA

POWERFUL AND RELIABLE PLAYBACK, ANYTIME... ANYWHERE...

Update your content on the fly without affecting playback quality.

Supports all Navori Server functions:

Playback any kind of content according to a predefined schedule.

Supported media formats are:

- Adobe Director® MX, Shockwave® 8.5 and Flash
- Microsoft PowerPoint® 2007
- Video: MPEG layer 1, 2 and 4, Windows® Media SD and HD, DivX, QuickTime®7 SD and HD, FLV
- Audio: WAV, WMA, MP3
- Streaming: MMS and ASF
- IP and on demand TV
- Images: BMP, GIF, JPEG
- HTML and all inferred functionalities*
- DVD-Video playback, TV-Tuner and DirectX based input feeds**.

Navori® Crawling Banner displays text entered manually, external text files and RSS data from public sources. Navori also supports custom Flash banners that you can either display as a background element to a Navori Banner or display on its own. All Flash functionality is retained. For example, if your Flash code retrieves and displays live XML data, it will be fully supported when played back in Navori.

Navori® Mosaic™ lets you display multiple media clips on screen simultaneously. Go from full screen media to multi-zoned content quickly and easily. Zoned content can either be individual media clips or complete playlists.

Boost Media - instant media playback triggered by a keyboard command at the Player level. Scheduled Boost Media now supported.

Potential uses:

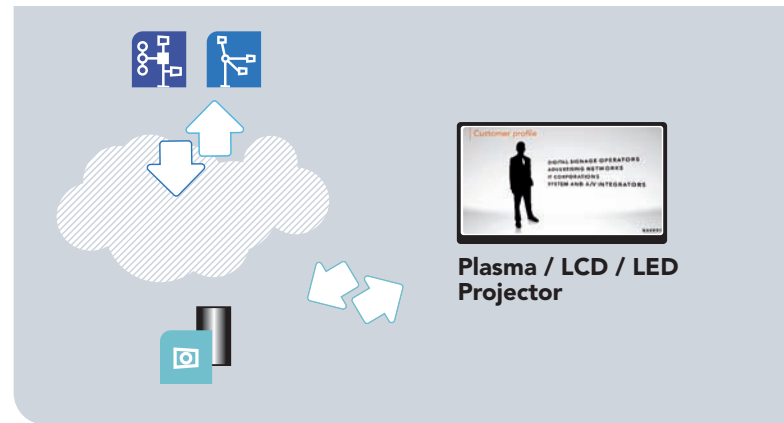

- Public announcements, Amber alerts.
- Fire alarms with on-screen notification
- Instant promotions.
- Media-on-demand triggered via RFID or other external device.
- Kiosk applications.

Application Interface languages:

- Arabic, English, French, German, Polish and Spanish.
