## EXTREMELY POWERFUL PLAYBACK!

Mix and match your content on the fly.

**Tycoon™ Player downloads new content and refreshes while on the air.**

**Mosaic** enables to split your screen into multiple zones with individual content.

**Navori® ticker:** Display manually entered text, centrally updated text files and RSS data from public sources.

Interactive and On-demand media capabilities.

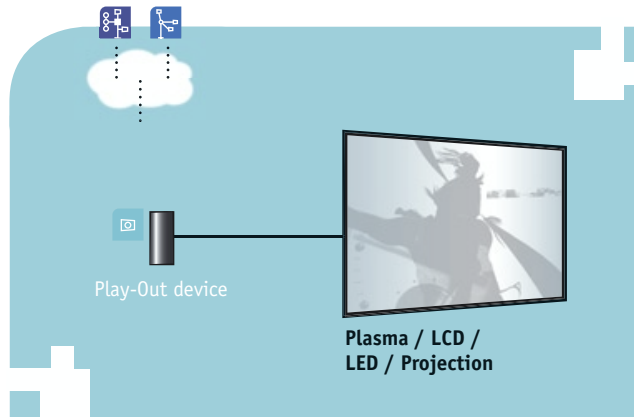

Perfect building brick for any interactive scenario.

Tycoon Player maintains all media properties including **interactivity** at **play-out level**.

### NEW : Boost Media:

Instant message play out on a keystroke from keyboard, remote control or external devices. Allows you to instantly override a current playlist with hidden mediafiles. It is possible to upload or send a subset of media files into a player enabling an immediate and seamless override of running playlist for patching in:

- Instant promotions.
- Alert Security messages, evacuation messages. [ Can be interfaced with f.i fire alarm system ].
- Media on demand capability - RFID routing signage applications.
- Kiosk applications.

### Tycoon Player is compliant with most media types
